LEGAL SERVICES

The determination of the need for legal services and the choice of a lawyer are extremely important decisions and should not be based solely upon advertisements or self-proclaimed expertise. This disclosure is required by rule of the Supreme Court of Iowa.

A description or indication of limitation of practice does not mean that any agency or board has certified such lawyer as a specialist or expert in an indicated field of law practice, not does it mean that such lawyer is necessarily any more expert or competent than any other lawyer. All potential clients are urged to make their own independent investigation and evaluation of any lawyer being considered. This notice is required by rule of the Supreme Court of Iowa.

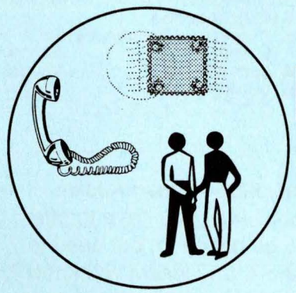
PROSPECTING
A Proactive Sales Approach

1. Determine the profile of the types of consumers that would make your best customers.

2. Turn to the Demographic Summary and look for carrier routes that meet your profile.

Demographic Summary
ARRANGED BY ZIP CODE, CAR-RT — The Polk Company



Zip Code	Carrier Route	Education and Income: Average Estimated Income	Median Yrs School Age 25+	Professional Technical or Managerial	Percent Multi Car Owner	Median Household Income	% HH Inc $25,000-$34,999	% HH Inc $35,000-$74,999	% HH Inc $75,000-$99,999	% HH Inc $100,000 or more

5. Contact these prospects through direct mail, telephone, or face to face.

The information you need for prospecting can be found in your Polk City Directory®.

"It could happen to you" scenario #9:

Coming back to your office after lunch you see a note on your desk that Bob called from phone #555-2434. You don't know anyone at that number, but want to call him back right away. You pick up the phone to call, but realize a little more information would be helpful. Your Polk City Directory® has the answers you need so you go to it and do the following:

Turn to the Telephone Key and look for 555-2434. It tells you Bob's full name is Bob Eagle and that he lives at 3771 Meadow Lark Drive.

Elarton Nathan L & Wendy B; retd h1074 Turner Rd (A) 756-4800

Look up Bob Eagle in the Alphabetical Section. There you find that he is married to Elaine, owns a business called Eagle Engineering & Supply Co, and that he is a homeowner (⌂). This information should prove helpful as you speak with Bob and the address will give you a chance to follow up with a note of appreciation should the conversation turn into an order.

While you're looking up his information, you decide to find out where he lives, just in case he would like you to pay him a visit and discuss things further. In the Street Guide you find that he lives just south of Hornbuckle Road and has lived there for 5 years (5). You also see that one of his neighbors is Austin Staynor, one of your best customers. During your sales call you might have an opportunity to suggest that Bob speak with Austin who, as a satisfied customer, will be a good reference for your business.

When you call Bob back you find out he heard about you from a neighbor named Austin. Without hesitating, he says he is interested in finding out more about what you have to offer and would like you to pay him a visit. You respond that you would be happy to, but need to know whether to come to his home or business? My home, he states, and inside you know he wonders how you knew he owned a business. You will tell him later that you found out more about him through the Polk City Directory, but for now it's your own little business secret.

Street Guide

The Street Guide will help you:

Pinpoint current customers or prospective new customers.

This is a listing of addresses in your area including names, addresses, phone numbers, homeowners, multiple adults in household, years at residence, and new neighbors.

Cross streets help you identify the exact location of addresses you are looking for.

The street summary at the bottom of each street lets you know whether the street is primarily business or residential occupied.

DISINTEREST CURIOSITY INTEREST CONVICTION DESIRE ACTION

Before a prospect will **BUY**, they must mentally travel through **6** states of mind.
Get through to them with Repeating Billboard Advertising.

Take advantage of the power of PLANNED REPETITION with Repeating Billboard Ads.

With a repeating billboard ad, your company will be noticed again and again as users thumb through the Polk City Directory. Your ad will repeat throughout the Alphabetical and Street Guide sections.

Your ad is highly visible as it can appear on the top of the page, or on the outside edge of a page...**the choice is yours!**

DID YOU KNOW?
62% of all ideas are accepted only after they are presented for the **6th** time. How do we know planned repetition works?

Planned repetition worked in school.
Spelling — Reading — Multiplication Tables — Etc.
Planned repetition worked at home.
Tying Shoes — Nursery Rhymes — Personal Habits — Etc.
Use planned repetition for your business!

Without planned repetition, if you gave your idea to 100 people just one time...

1 day later...25% would not recollect.
2 days later...50% would not remember.
4 days later...85% would not recall.
7 days later...97% would have forgotten.

The most effective Polk City Directory advertisers specify this popular service. **Ask your Polk City Directory® sales representative, or call us toll-free at 1-800-886-7075 to find out how you too can take advantage of the selling power of repeating billboard ads.**

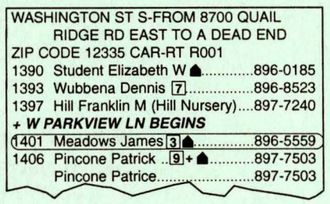
"It could happen to you" scenario #5:

Stewart-Meadows Wedding
Ashley Stewart and James Meadows will be married on Saturday, June 3rd at 2:00 PM at the Farley Wedding Chapel in Greenspan.
St. James-Adams To Wed
Rebekkah St. James and Michael Adams to wed on Saturday, July 1st at 5:00 PM at the First United Chur[illegible]hany

While looking through the morning paper over breakfast, you notice a couple of wedding announcements. One of them says James Meadows and Ashley Stewart will be married on June 3rd. The other states Michael Adams and Rebekkah St. James will wed on July 1st. You realize a prime prospecting opportunity and jot down their names on a slip of paper to look up in your Polk City Directory® when you arrive at work.



At work you pull out the slip of paper and begin prospecting. Your business clientele is comprised mostly of men, so you will concentrate your efforts toward them. In the Alphabetical Section you look up Michael Adams first. You find that he lives at 109 Johnstone Ave in Apartment #1. In the M's you see that James Meadows lives at 1401 South Washington. You also notice he is a homeowner by the homeowner symbol (🏠).

With the complete mailing address you send a personalized greeting to each of them, congratulating them on their upcoming nuptials and offering your services to them. James calls you back a week later asking for more information on what you have to offer. Michael doesn't respond, but that's okay—you've also got his number in the Polk City Directory and will follow up with a phone call.

Congratulations!
On your upcoming wedding.
From the office of John Q Money
456-7890

Even if Michael is not interested in what you have to offer, at least you've established contact, plus you have a hot sales lead in James. The few minutes it took to gather this information with your Polk City Directory will have long-lasting benefits.

Don't get lost in the crowd...

Many buyers use the Classified Business Section to make purchasing decisions, but only our advertisers get to provide the detailed information that influences purchasing decisions. Make sure that your business is not just another face in the crowd. Advertise in the Polk City Directory for maximum exposure to interested buyers!

Talk to your sales representative or call 1-800-886-7075 to find out how you can advertise in next year's Polk City Directory®!

Since 1870, there has been one pioneer in the directory industry, the Polk City Directory. The success of the directory is primarily a result of the quality of the information provided within its pages. This information is assembled from a variety of public and private sources, and nearly 50% of the information in each edition is new or updated from the previous year.

We put a lot of effort into compiling this data, yet we realize the best sources of this information are the individuals or businesses who are impacted by the data. As part of the process of updating the information that will go into next years Polk City Directory, we are assembling self-reported information that will help ensure that next years directory is as complete and accurate as possible. Please take a few moments to fill out and return the attached Change of Address Form if any information in the directory is changing for you.

It is important that you list both your old address information and your new address information in order for us to have a point of reference for making the proposed changes.

If you prefer to fax your updates, please fax this form to: **231-946-6676**

Thank you for your assistance!

Geographic Data Technology (GDT), a wholly owned subsidiary of R. L. Polk & Co., provides the geographic data for the Maps and Street Index Guide in this Polk City Directory.

Geography is constantly changing, and GDT uses a number of resources to keep up with those changes. We maintain relationships with thousands of local and state agencies and private map producers to make sure we have the most current resources available. However, we realize that the best sources of information on any city's streets are often the people who live there and drive those streets on a daily basis. We encourage customer input and feedback on areas where the Polk City Directory maps and street index guide can be improved.

Please use the attached Map Update Form to send along your feedback, be sure to include the publication name on the Polk City Directory cover. In the space provided, describe or sketch the street and address in question, indicating the current and corrected location. If your changes require more space than the form allows, or if you are able to forward an existing map resource of the area, please mail or fax your changes to us.

If you are not able to supply an existing map reference, please be as specific as you can, listing address location and direction (do address numbers run north or south...east or west?) address parity (which side of the street has even addresses and which side has odd?) and proximity to intersecting streets.

Just the FAQ's about the Map Section

Answers to Frequently Asked Questions (FAQ's):

Will the street maps cover the entire geography of a directory?

Our goal is to provide street-level coverage for the entire geography of your directory, however there will be some instances where this goal is not met. Issues that will affect the extent of street level coverage include:

- Limitations of the street file database. In some rural areas, streets are not named in the database. Our cartographers will omit these areas from the Map Section.
- Coverage area is too large. We have established a maximum of 48 street-level map pages for a directory. In directories with very large coverage areas, outlying areas may be omitted from the Map Section.

Will features (cemetery, post office, etc.) be inclusive for the area?

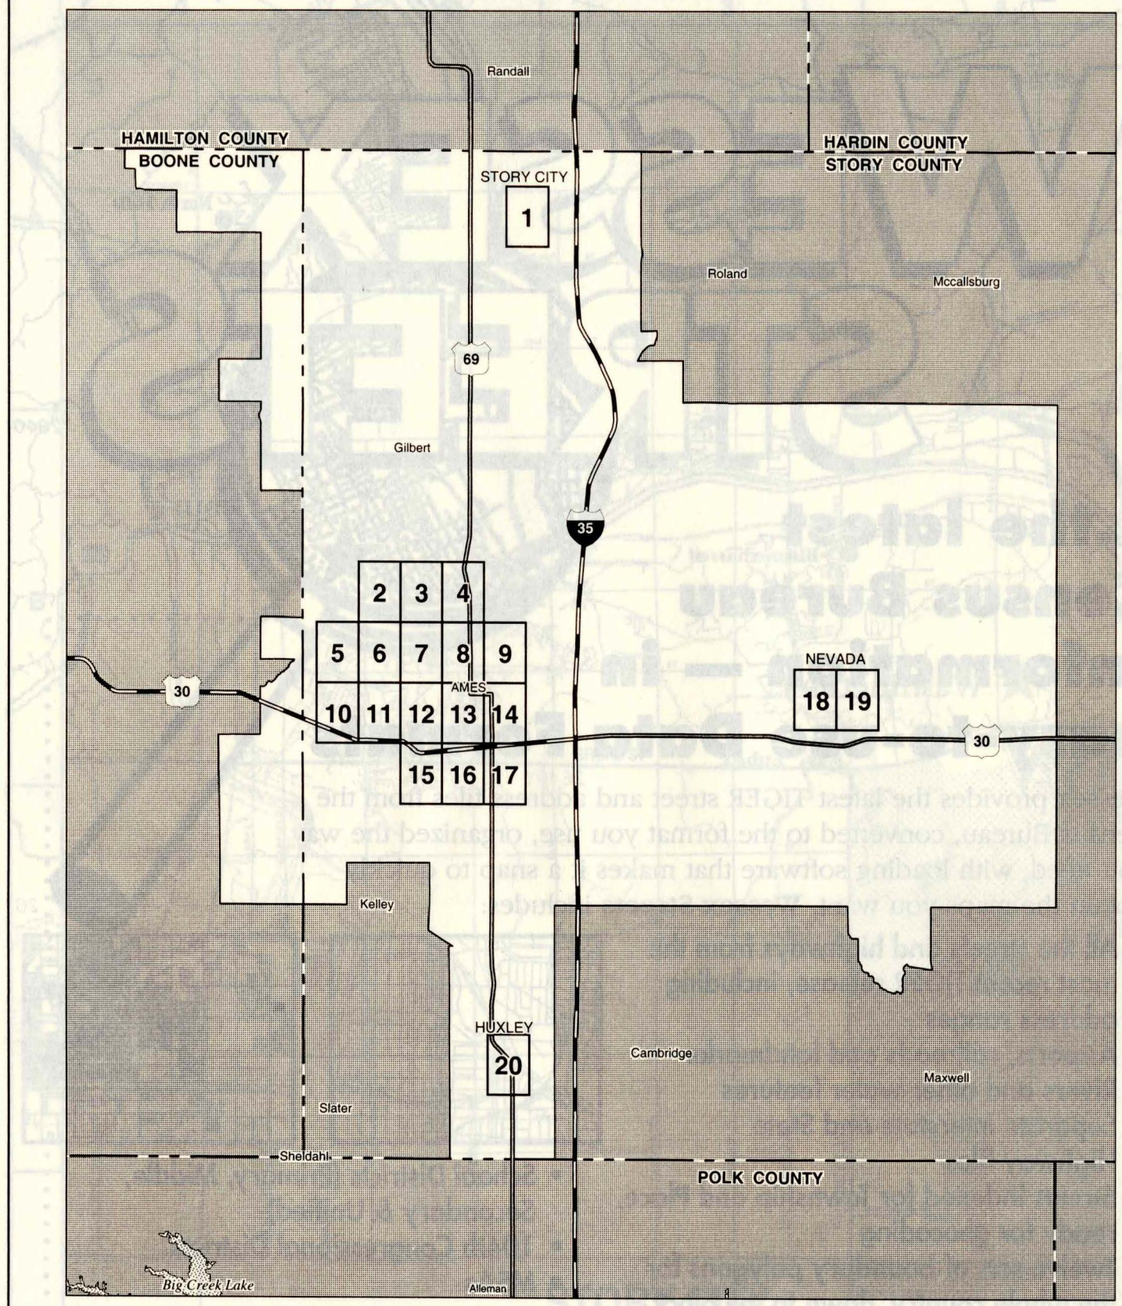
The Map Section will illustrate the following features whenever they are in the mapping database:

- Highway and street, Railroad, U.S., State and County boundary
- Hospital, Cemetery, Government Facility, Post Office, Rail/Subway terminal
- Bus terminal, Retail Center, Golf course/country club, Park, Airport
- Point of Interest (ex. Empire State Building), Water (lake, river, etc.).
- College, Stadium (professional), amusement park, correctional or military facility

Why doesn't a certain street appear on a map?

Geography is constantly changing, and Geographic Data Technology (GDT), our Map Section provider uses a number of resources to keep up with those changes. GDT maintains relationships with more than 5,500 government agencies and private map producers to make sure it has the most current resources available. As part of its quality assurance process, GDT requires at least two sources to include new information in its product. Sometimes the resources GDT uses may not include a particular street, or GDT may not have had appropriate resources to verify the street's existence. GDT realizes that the best sources of information on a city's streets are the people who live there and drive those streets on a daily basis. Because of this, GDT welcomes feedback on areas where its product can be improved. You can use the map feedback card found in your POLK CITY DIRECTORY to provide feedback to GDT on missing streets or areas that need further improvement.

It looks like there's a line indicating a street but it has no name. Why is this?



GDT may have been able to verify the existence of the street, but not the street name. (For example, the street may have come from a newly approved plat map that did not yet include street names.) GDT has added the street as an unnamed feature. Once the street name has been verified, GDT will include the street name. You can use the map feedback card found in the POLK CITY DIRECTORY to provide feedback to GDT on unnamed streets or areas that need further improvement.

Why should I use the POLK CITY DIRECTORY Map Section rather than another map?

The Map Section is neatly bound inside your POLK CITY DIRECTORY, a reference tool that is already used in thousands of delivery and service vehicles around the country. Used in conjunction with the other sections of our directory, you can not only find your way around town efficiently, but have the wealth of information provided in the POLK CITY DIRECTORY with you as well.

Demographic Summary

The Demographic Summary will help you:

Determine which geographic areas have the best potential for your products and services.

A summary of demographic information is given for each carrier route/zip code.

Demographic information includes average estimated income, household age, median age of adults, median home values, median household incomes, owner vs. renter occupancy, average years lived at same address, and more.

How to use the Demographic Summary for sales prospecting

How can I find my best potential customers?

1. Establish the profile of your best potential customers.

   Individuals over 45 years old who have lived at the same residence for more than 10 years are most likely to buy my products. (Illustration only. You determine profiles based on your needs.)

2. Find out which carrier routes best meet your potential customer profile by searching for these characteristics in the Demographic Overview tables.

			Neighborhood Composition							
	Zip Code	Carrier Route	Total Business Count	Total Household Count	Total Person Count	Household Age	Percent Households w/Children	Median Age Adults 18 and Over	Average Length of Residence	% Length of Residence 0-2 Years	% Length of Residence 10+ Years
	49707	C001	257	401	1226	Retired	35	(47)	6	37	21
◆	49707	C002	420	338	1048	Middle	25	(48)	8	30	(53)
	49707	C003	331	289	952	Middle	32	(46)	9	19	39
	49707	C004	390	295	932	Middle	31	(46)	8	26	46

All the carrier routes meet the age profile, but C002 has the greatest percentage of individuals who have lived at the same address for more than 10 years .

3. Look at the Guide to Carrier Routes to identify all the neighborhoods in this Carrier Route. *In this example we are looking for C002.*

Just the FAQ's

Answers to Frequently Asked Questions (FAQ's):

How are streets listed in the directory?

The Street Guide lists streets in alphanumeric order with numbered streets appearing first.

Identical street names are listed alphabetically by town name. For example, 200 S Main St in Ann Arbor would appear before 200 S Main St in Chelsea.

Within a city, streets appear alphabetically beginning with the primary street name. For instance, Main St will appear before E Main St which is before N Main St and so on.

How do you list streets that are referred to in more than one way?

We adhere to postal service naming standards, so there will be instances where one side of the street has one name and the other side of the street has a different name.

What is a carrier route?

Carrier routes are one of the ways the postal service identifies a deliverable mail address. They are shown in the directory, whenever available, in the Street Guide.

Are unlisted phone numbers in the directory?

Unlisted phone numbers will not be provided. We respect the right of individuals to not have their phone number published. Furthermore, residents and businesses whose address information is unavailable *will not appear* in the Street Guide.

What if someone's mailing address is different than their physical address?

We standardize each address with U.S. Postal Service standards and list the physical address in the directory. Rural route numbers can be obtained from the carrier route information. Post office boxes are only used when no other physical address is available.

What if I do not want to be listed in the directory?

Polk takes an active role in ensuring the responsible use of consumer information and honors all requests from consumers who do not want to be included in the Polk City Directory. Consumers who do not wish to be listed can fill out and return the change of address form in the back of the directory, checking the box indicating that they do not want to be listed.

Where does the demographic information come from?

All demographic information is obtained from a variety of public and private data sources, including United States census figures. The information is adjusted quarterly based on several economic indicators.

Glossary of Demographic Terms

Demography is the study of human populations, including size, growth, density, distribution, and vital statistics. This information can be helpful in deciding where to locate a business, determining what content to include in an advertising message, or determining the best neighborhoods for distribution of your print advertising.

Zip Code -- The five-digit zip code for which demographic information is provided.

Carrier Route -- A group of addresses within a zip code for which demographic information is provided.

Total Business Count -- The total number of businesses in a group.

Total Household Count -- The total number of households in a group.

Total Person Count -- The total number of adults in a group.

Household Age -- The age category of adults 18 and older, that occurs most frequently for residents in a group. Values are defined as follows:

Value	Description
Young	18 to 34 years
Middle	35 to 54 years
Older	55 to 64 years
Retired	65+ years
Unknown	Unknown

Percent Households with Children -- Percent of households with children. If there are 1,000 households in a group and 55% have children, then 550 households in the group have children.

Median Age Adults 18 and Over -- Median age of adults 18 years and older. Half of the ages in the group are greater than the median age and half less than it.

Average Length of Residence -- Average length of residency. The average number of years a resident in a group has lived at the same address.

% Length of Residence 0 - 2 Years -- Percent of households who have appeared at their current address for two years or less.

% Length of Residence 10+ Years -- Percent of households who have appeared at their current address for ten years or longer.

Average Estimated Income -- Average estimated income (in whole dollars). The average income estimate of adult residents, age 18 and older, in a group.

Median Yrs School Age 25+ -- The number of school years completed by that person 25 or older who falls in the middle when all persons 25 or older are ranked by number of school years completed.

Professional, Technical or Managerial -- The percentage of all employed persons employed in a job classified as professional, technical or managerial.

Percent Multi Car Owner -- The percentage of households in the carrier route that own two or more cars.

Median Household Income -- Half of the households in a group have an income greater than the median household income and half less than it.

"It could happen to you" scenario #2:

You are in your first week at a new sales job and are anxious to prove your worth. You are given a list of names and phone numbers to call, but the quality of the list is questionable. The other sales people in the office have complained about how old and outdated the list is, and your first few calls seem to validate their complaints. Before proceeding too far into the list you decide to pursue another avenue. The first day on the job you were shown a Polk City Directory® and told it was a reference tool. After a brief search you find it. While skimming through its six sections you realize you've got more than a reference tool in your hands, so you decide to put it to good use.

The Telephone Key lists all the telephone numbers in numerical order and lists the names of the residents or businesses at those numbers. You are interested in residents only, so you call the first resident on the list to see if the quality of the list is better than the original cold calling list you received.

The first residential number belongs to Marisa Kotter in Oakland Hills. You get an answering machine, so you make a note of it and will try again later. The second number is a hit, but they're not interested. The third hangs up before you can even warm up. There's no answer at the fourth household, but number five proves to be a winner. Tim Jackson is interested in hearing more and has agreed to an appointment. Your first ten calls look something like this:

The information in the Polk City Directory has proven to be a winner. Two appointments in your first ten calls, and you're just getting started. Reference tool, huh? Sure, you'll refer to it, but as a prospecting tool. The question is whether or not you'll want to share it with your co-workers once they ask for the secret to your success.

Need Lists?

Polk's list services give you access to the largest and broadest database of business and consumer information.

It is, quite simply, the best resource to find the most productive prospects in any geographic area to meet your specific needs.

While the breadth of this compiled database makes it the largest in the industry, it's the depth of information that makes it the most useful.

This comprehensive database has exclusive information on a variety of critical selects, making it easier for you to find the prospects that are most likely to buy your product or service.

Here are a few examples of the selection criteria available

RESIDENTIAL INFORMATION		BUSINESS INFORMATION	
• Female/Male	• Home Value	• Type of Business	• Owners/Officers Names
• Age	• Estimated Equity	• Size of Business	• # of Employees
• Income	• Mortgage Range	• Radiate Around a Geographic Center Point	• Multiple Locations
• Marital Status	• Mortgage Start Date		• And Many More
• Occupation	• Geographic Location		
• Vehicle Information	• And Many More		

100 different selection features from nearly 30 different sources of data.
So much data that the selections are almost endless.

Contact prospective new customers through mail, by phone, or face to face. We can provide a variety of media types, including:
CD Rom, Magnetic Tape, Cheshire Labels, 3 x 5 cards, Electronic Data Transfer, or call for availability of other media types.

Fresh data with greater deliverability.
Our lists are continuously updated with new sources and processed against NCOA*, LACS*, DSF*, and ZIP+4 postal addressing processes to ensure the maximum efficiency of your sales efforts.

Call toll-free to find out how you can put the power of Polk's list services to work for you.

3 Down - WHERE

Turn to the new **Map Section**. In it you will find detailed street maps. Find the address and cross streets of your customers in the Street Guide, then get the visual representation of their location in the Map Section.

4 Down - WHY

The **Demographic Summary** shows you several characteristics of residents and businesses who live in that area. If these characteristics match the profile of your best customers, then your marketing dollars will go further by selectively targeting to prospects who fit that profile

Some questions to ponder about your business...

Who are your customers and prospects? Are they residential? Are they business and commercial?

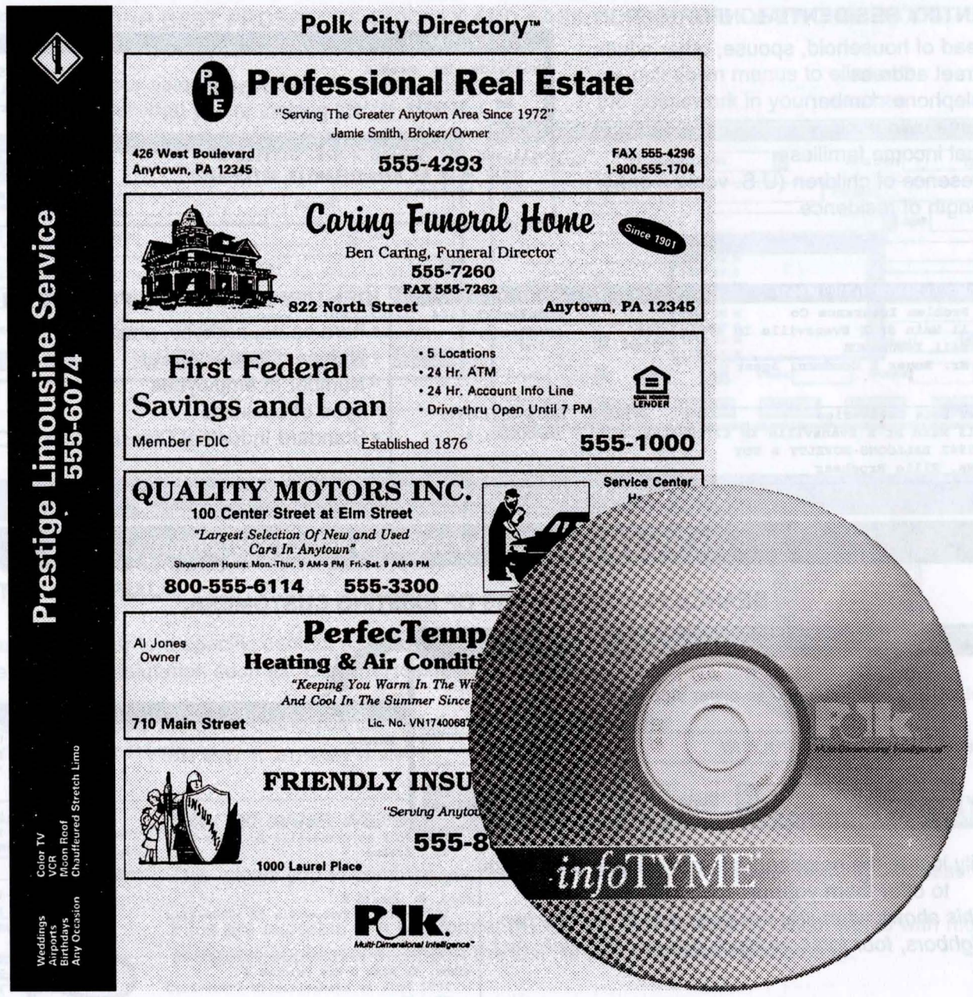
Are your residential customers home owners? Are they renters? Are they male? Female? Retired? Students?

Do they come from dual income families? Is their income level low? Average? Above average? High?

What type of businesses are your customers? Do you know exactly who to talk to when you contact prospective business customers?

What is an average customer worth to your business in revenue? How much is your average sale?

How do you inform customers of new products or services? How do you attract new customers?



Where are your customers and prospects located? Your city? Another city? Another state?

Your Polk City Directory® can help you find answers to all kinds of questions. Polk has been the source for all your business information needs since 1870. Let us show you how we can save you time and make you money. Call Polk today at 1-800-275-7655.

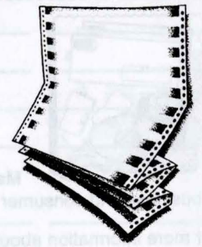
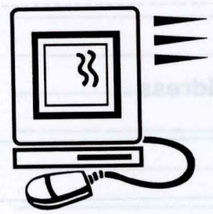
SELECT YOUR BEST PROSPECTS QUICKLY AND EASILY USING ONE OF TWO METHODS:

Key in your selection criteria when you know what you're looking for



Use pull-down menus to eliminate the guesswork in your searches



The target market version of *info*TYME® allows you to:

CREATE MAILING LABELS, PHONE LISTS, AND OTHER PRINTED MATERIALS.

Address your letter to a specific contact using a variety of preset salutations, or use a generic salutation such as "Current Resident" or "Occupant."

Most standard labels are preset, and you can create your own dimensions to work with other labels.

EXPORT NAME, ADDRESS AND PHONE DATA INTO A SEPARATE DATABASE.

This allows you to combine your new *info*TYME leads with your existing database.

Files are exported in a text format (ASCII* comma delimited), which works with most computer applications. Import the text file into your existing database.

Two Versions Available in both U.S. and Canadian editions:
A Target Marketing version with printing and exporting capabilities.
A Reference version for on-screen lookup only.

System Requirements:
IBM or compatible computer: 80486 or higher processor. 16 MB of RAM (32 MB recommended). 2MB of available hard disk space. CD-ROM. VGA or higher resolution monitor. Available for Windows® 3.1 and above. Mouse required.

*ASCII is the predominant character set end coding of present day computers
